Frontend Web Developer

Self-taught front-end developer with a strong foundation in web development acquired through dedicated self-learning and hands-on projects. Committed to continuous improvement, I maintain an updated skill set and showcase my technical prowess through a portfolio demonstrating responsive and visually engaging web interfaces.

WORK EXPERIENCE

Dimchi • Lagos, Lagos State, Nigeria • 01/2024 - 02/2024

Dimchi is a startup company that deals with the sale of women's hair extensions, wigs, hair accessories and products.

Frontend Web Developer • Part-time

- Independently built a responsive landing page for showcasing hair products, leveraging React.js, Styled-components, and Material-UI.
- Demonstrated ability to architect and define front-end frameworks to address complex design challenges in accordance with creative direction.
- Collaborated effectively with brand manager from different time zones, resulting in a 20% increase in website traffic, enhancing brand visibility and market reach.

X-gen • Lagos • 05/2023 - 07/2023

X-gen is the digital haven for fashion-forward individuals seeking trendy hoodies and sneakers. With an exclusive online emporium, it caters to both men and women, offering a diverse array of styles to suit every taste. Embrace the fusion of comfort and style, all at the click of a button.

Front End Developer • Part-time

- Optimized website by developing a user-friendly ecommerce template website with HTML, CSS, and JAVASCRIPT, leading to improved user experience and higher search engine rankings.
- Partnered with the brand manager and ui/ux designer to streamline website loading time by 20%, leading to improved user experience and higher customer satisfaction.
